MEET THE CANTERBURY TEAM

LOCAL PEOPLE. LOCAL KNOWLEDGE. ONE TEAM FROM CONCEPT TO COMPLETION.

We're a locally owned and operated Canterbury business, bringing together decades of experience across construction, building design, estimating, project management and customer service. From your first conversation and initial concept through design, engineering, consenting, construction and final handover, our team works together to make the building process as straightforward as possible. Whether it's a residential garage, lifestyle building, workshop or commercial development, you'll be dealing with a local Canterbury team committed to delivering the right building for you.

TOM FITZGERALD

Co-Owner | Residential, Commercial & Business Development

Tom brings a diverse background in business, leadership and project management. Starting out in the civil construction industry, Tom established and successfully operated his own business before embarking on 33 years of public service, including many years in senior leadership and management roles. At Totalspan Canterbury Tom works across both residential and commercial projects, with a major focus on client relationships, business development and delivering practical, cost-effective building solutions.

- *33 years of public service*
- *Residential & Commercial focus*
- *Relationships & results*

BILLY THOMPSON

Co-Owner | Construction & Building

Billy brings extensive hands-on construction experience and practical building knowledge to Totalspan Canterbury. As an experienced builder and Licensed Building Practitioner (LBP), Billy has an in-depth understanding of how buildings come together. His practical knowledge helps ensure what we design is buildable, practical and finished to the standard our clients expect.

- *Licensed Building Practitioner*
- *Hands-on builder*
- *Quality & attention to detail*

CURTIS BUSH

Operations Manager | Licensed Building Practitioner

Curtis has extensive practical construction experience and a wide knowledge of the building industry. As a Licensed Building Practitioner (LBP), he has been involved in a wide variety of projects, including many architectural builds. Curtis oversees project delivery, coordinating teams, subcontractors, materials and programming to keep every project running smoothly and on track.

- *Operations expertise*
- *Architectural builds experience*
- *Keeping projects on track*

CHARLOTTE MCFARLANE

Building Design | Engineering & Consents

Charlotte brings many years of experience in building design and a strong understanding of the technical requirements from concept to construction. She coordinates building design, engineering and consenting with clients, engineers, councils and the wider team. Charlotte's design experience ensures projects are practical, compliant and ready for construction, linking the client's vision to the finished building.

- *Building design specialist*
- *Engineering & consents*
- *Many years of experience*

BRITTANY COOKE

Project & Client Coordination

Brittany brings extensive customer support and coordination experience across building and related industries.She supports clients throughout their building journey, coordinating projects from design and consents through to construction and handover.Brittany is focused on clear communication, keeping clients informed and making the building experience as smooth and enjoyable as possible.

- *Clear communication & organisation*
